PRIMULA PLANTS

1949

Each plant is individually wrapped in attractive wrapper suitable to counter display. Plants are shipped as they come into bloom for best sales appearance, or, as customer requests, during flowering period.

Bare-root plants (not in flower) packed in damp moss, will be shipped for lining out, only of varieties thus listed. Bare-root shipments at purchaser's risk, from March 1st to November 10th.

The following quotations are for deliveries Spring of 1949, f.o.b. Oakville, Wash.

<u>SPECIES</u>	PRICE per 100	
	Wrapped	Bare-root
denticulata caschmeriana India		
Large globular heads of lilac-blue, 18 to 25 inch stems bare of leaves. Large, mealed basal leaves.	\$ 22.00	
denticulata caschmeriana alba		
A white form of the above.	22.00	
japonica Japan		
Various shades of white through pink to red, borne whorl above whorl on the stem. Large crinkled leaves.	23.00	
sieboldi Japan		
Loose umbels of lacy edged flowers on wiry 8 inch stems. Pastel shades from white through pink to lilac.	17.00	\$ 12.00

DOUBLE ACAULIS HYBRIDS

Double lavender		
Plants with somewhat small foliage. Flowers are very double rosettes borne on individual stems six inches or more in length. Desired by florists for corsage work.	27.00	23.00
Double white		
Foliage slightly larger than the lavender form. Flowers very double, clear white; slight pink blush with age.	27.00	23.00

SINGLE BLUE ACAULIS

Assorted Shades		
Grown from divisions from selected specimens out of mixed blue seedlings. All good blues.	22.00	17.00

10 plants of a variety at the 100 rate. Less quantities add 10% to the 100 rate.
